THE LATEST.

Russia has issued a circular note to the Powers concerning The Hague Peace Conference. The principal feature of it is the announcement that Russia, Germany and Austria reserve the right to abstain from the discussion of "questions which in their opinion cannot lead to practical results," meaning the limitation of armaments. In closing the note mentions the middle of June as the time of the conference.

Efforts to have the union label on all printed matter whatsoever are being made by the International Typographical Union, and it has met with some success, especially in New York. In a letter to the officers of the union in Washington, Secretary of State McChesney, of Kentucky, regrets that Kentucky cannot adopt the union label for all printing done for the State.

Three important bills, known as administration measures, were passed by the Tennessee Senate, which had a busy day. The House was in a mood to kill measures, and rejected two bills by easy majorities. One bill which was passed by the Senate provides for a new system of election commissioners.

Although 350 counts in the indictment against the Standard Oil Company were dismissed yesterday in Chicago, there remain 1,550 counts on which the company may yet be convicted, and the Prosecuting Attorney says this number will be ample without the ones eliminated.

Harry Thaw yesterday underwent his final examination before the lunacy commission and left the inquiry room in an optimistic frame of mind. The commission will make its report this morning to Justice Fitzgerald.

New York politicians of the Republican faith are chary about discussing the Roosevelt-Harriman controversy. Former Gov. Odell, Senator Platt, Cornelius N. Bliss and Frank S. Black all declined yesterday to make any comments on the matter.

Prospects are brighter than ever for a settlement of the trouble between the railroad men and the Western railroads. The men have submitted a proposition through the Government representatives, which will be received by the managers to-day.

Santos Dumont's airship, which was brought to this country for use at the St. Louis World's Fair, was sold at New York with other unclaimed articles on which duty was unpaid, and brought just \$80.

Walter Wellman, in an interview, expresses great confidence in his ability to reach the Pole in a balloon. He thinks Commander Peary's fears in the matter unfounded. The start will be made in July.

John R. Walsh, under indictment on charges of misapplying bank funds, was arraigned in the Federal Court in Chicago, and entered a plea of not guilty. The trial was set for October 16.

An important conference was held at the White House yesterday afternoon on the subject of trust prosecutions. President Roosevelt and four members of his Cabinet taking part.

Edgar Winburn, while plowing in a field on his farm, near Winchester, was fired at by a man with his face blackened. Four bullets hit his mark, but Winburn will recover.

A bill making it unlawful for brewers and wholesale liquor men to own saloons has passed both Houses of the Nebraska Legislature, and will be signed by the Governor.

The St. Louis brewery workers' strike has been settled and an agreement running three years has been signed. The men get increases in pay and shorter hours.

The trip of the gunboat Wasp up the Mississippi river has resulted in increasing the number of recruits in the navy and is regarded as being entirely successful.

President Roosevelt is said to have another warm letter prepared in anticipation of an attack from a distinguished former official of his Administration.

Reports have been received at Bucharest that complete quiet prevails everywhere in Roumania, and that the recent agitation may now be considered ended.

The New York Court of Appeals has declared unconstitutional the entire apportionment of legislative districts made by the last New York Legislature.

The Michigan Senate has passed a measure cutting railroad fares, but grading the amount of the cut according to the roads' net earnings per mile.

ANOTHER HOT ONE COMING

President Loaded For a Distinguished Citizen.

Expects Attack and Is Ready With Answer.

Satisfied With the Result of Harriman Encounter.

Points With Pride To Former Reply To Parker.

NEW YORK DENSELY SILENT.

HARRIMAN WANTED TO GO TO SENATE.

It was authoritatively declared at the White House yesterday that the real reason for Mr. E. H. Harriman's interest in the election of the State ticket in New York in 1904, reference to which was made in the communications which passed between him and the President, was that he desired to advance his own ambitions. It is asserted that Mr. Harriman wanted the position of Senator now filled by Mr. Dewey, and that this was the reason why he was anxious to have him appointed as Ambassador to Paris. The inference from Mr. Harriman's attitude, according to the statement made at the White House, was that if Senator Dewey could be induced to go to Paris, Gov. Higgins was prepared to appoint Harriman to the vacancy.

Brooklyn, N. Y., April 3.—[Special.]—A Washington dispatch to the Brooklyn Eagle to-night says:

"In a pigeon-hole of the President's desk is a second letter, which will also be produced at an opportune moment. It refers to certain doings of a distinguished ex-official of Mr. Roosevelt's Administration. This official severed his connections with the Government service not so very long ago, and, while the newspapers did not say so, he was forced to resign.

"This man has a grievance against the President, for he imagines he was treated very badly. Word came to the White House that he was prepared to come out with a sensational statement attacking Mr. Roosevelt. The President thereupon sent to the office of the former official and secured the complete records of certain transactions that were factors in the decision that the official must resign.

"It is understood that the official records, if properly treated, will show that the former official was not so circum-spect as he might have been in many important particulars. The facts were fixed up in a way to be most effective in a statement that was prepared at the White House, and this was laid aside for future use. If the ex-official in question 'breaks loose' with an attack upon the President, as it is believed he will sooner or later, the ammunition will be at hand for an immediate reply shot that will probably bring the incident to an abrupt end."

PRESIDENT REFERS TO PARKER'S STATEMENT.

Declares His Reply Made In 1904 Has Never Been Traversed Nor Questioned.

Washington, April 3.—President Roosevelt discussed with a number of his callers to-day various features of the controversy between Mr. Harriman and himself growing out of the publication of the letters between them. He desired not to be quoted in the matter, however. To his friends to-day the President made it plain that his version of Mr. Harriman's visit preceding the election of 1904 was that Mr. Harriman wanted assistance from the National Republican Committee to help Chairman Odell in the New York State campaign, toward whose expenses he (Harriman) had raised \$100,000. The President promised to communicate with Cortelyou and Bliss to see what could be done. He did in this case, he declared, just what he had done in other instances where he had been appealed to help in State campaigns.

To some of his visitors the President referred to the statement made public last night by Alton B. Parker in Albany, in which he said that it has never been denied that \$150,000 was turned over by the Equitable, Mutual and New York Life Insurance Companies to Mr. Cortelyou's committee, and that Congress has refused to make an investigation into the corporate contributions of 1904 or to pass a law prohibiting such contributions in the future. On this subject the President referred to a statement which he made on November 4, 1904, in which he said in part:

"That contributions have been made to the Republican committee as contributions have been made to the Democratic committee, is not the question at issue. Mr. Parker's assertion is in ef-

fect that such contributions have been made for improper motives, either in consequence of threats or in consequence of improper promises, direct or indirect on the part of the recipients * * * but there is not one particle of truth in the statement," etc.

Neither Mr. Parker nor his supporters, the President declared, have been able to traverse or question the statements made in that answer. The President said that to his own knowledge about a dozen contributions offered by corporations had been declined by Chairman Cortelyou, but that others had been accepted. A contribution by the American Tobacco Company, he said, had been returned. A prominent man had made a contribution of \$20,000 to the Republican campaign fund. Subsequently this man had made known his desire for an appointment in the diplomatic service in the event the President was elected. As soon as his motives were understood the National Committee returned his contribution.

The President asserted to his callers that none of the corporations that contributed to the campaign fund in 1904 had come to him for favors either directly or indirectly. In this connection the President referred to the legislation enacted regarding corporations during the last two years as disproving any imputations that immunity would be shown them for their contributions.

SENATOR DEPEW HAS FEW WORDS TO SAY.

Bliss, Odell and Black Fight Shy of the Roosevelt-Harriman Controversy.

New York, April 3.—While the controversy which has arisen between President Roosevelt and E. H. Harriman, following the publication of a letter written by E. H. Harriman to Senator Dewey, has been the subject of much discussion, the following is a summary of the controversy.

MORE TROUBLE FOR THE TRUSTS

IMPORTANT CONFERENCE AT THE WHITE HOUSE.

FOUR MEMBERS OF CABINET IN ATTENDANCE.

BONAPARTE LAYING PLANS.

Washington, April 3.—An important conference was held at the White House this afternoon on the subject of trust prosecutions now under way by the Department of Justice. Those present included four members of the President's Cabinet, Messrs. Root, Bonaparte, Garfield and Cortelyou. The so-called tobacco trust was one of the subjects discussed.

The discussion to-day was a general one without reference to any particular trust or corporation and no conclusions were reached. Attorney General Bonaparte, it is said, is outlining a plan for action. He submitted his programme to the President and his Cabinet associates with a view of receiving any suggestions as to the best methods to pursue when the Administration is ready to resume the trust prosecutions.

A committee of independent watch manufacturers from Ohio and Pennsylvania headed by Representative Kennedy, of the former State, to-day laid before the President a petition affecting the operations of the so-called watch trust. The President sent the petition to the Attorney General. The committee included Thomas T. Kyle, of Springfield, O.; Julius Whiting and A. L. Sackett, of Canton; William Wagner, of Cleveland, and H. J. Johnson, of Pittsburgh.

ESCAPING PRISONER STICKS IN DOORWAY

SERIOUSLY INJURED IN EFFORTS TO GET EITHER OUT OR IN.

Salisburyville, Ky., April 3.—[Special.]—Tom Gullett, confined in jail here on a charge of felony, concluded to take his departure by the light of the moon, and in crawling through a small trap door, which was used for passing food to the prisoners, stuck fast, and his fellow prisoners were unable to give him any assistance. The prisoner, having exhausted himself, begged to go either way, begged the other prisoners to end his suffering with a club.

A doctor was called, who found him in a serious condition. The village smith, with chisels and hammers, was next to arrive, and after three hours' work, released Gullett.

REFORM SPELLING MAKING PROGRESS.

New York, April 3.—Chairman Brandt Matthews, of the Simplified Spelling Board, at the first annual meeting at the Waldorf-Astoria Hotel to-day, submitted a report, in which he stated that at least 100,000 persons were using the form of spelling urged by the organization. Most of the criticisms against the board's activity, Prof. Matthews declared, had come from men of letters, but their criticism had been more than science. Prof. Matthews stated that the board's activity had been more than science. Prof. Matthews stated that the board's activity had been more than science. NEW LINE INTO COAL FIELDS

Illinois Central Said To Be Seeking Extension.

Mysterious Company Incorporated At Frankfort

To Build Road From That City To Lexington.

LOUISVILLE MAY BE TERMINAL.

Frankfort, Ky., April 3.—[Special.]—Articles incorporating the Kentucky Highlands Railroad Company to-day were filed in the offices of the Franklin County Court, the Secretary of State and the State Railroad Commission. The incorporators are Louisville men, S. S. Bush, John C. Doonan, Edmund F. Trabue, Attilla Cox, Jr., S. H. Owen, Menefee Wigram and J. D. Winston, and the new corporation has \$250,000 capital stock.

The new company proposes to build a line of railroad from Frankfort, through the counties of Franklin and Woodford, to Versailles, and through the counties of Woodford and Fayette, to Lexington, a distance of about thirty miles.

Surveyors At Work.

Surveyors have been at work on the line for some time, and it was generally thought here that they were in the employ of the Louisville and Nashville Railroad Company. The incorporators are said to represent the Illinois Central Railroad Company, several of them being Kentucky lawyers for that company, and it is said that the company proposes, by this route, to get in to the Kentucky coal fields, connecting with the Louisville and Atlantic Company.

A connection between the State Capital and the Louisville terminals of the company is said to be also in contemplation, and the filing of the articles of the Kentucky Highlands Company here to-day gives currency to a story that this connection is to be made by way of the Louisville and Eastern Company, the electric line out of Louisville, which has already reached Lagrange, Oldham county, and has surveyed a route on through to Frankfort. This connection would give the Illinois Central Company a through line from Louisville to the eastern end of the State of Kentucky.

\$250,000 Capital.

The articles filed provide that the capital stock of the company shall be divided into 2,500 shares of the par value of \$100 each. The business and affairs of the corporation shall be conducted and transacted by a Board of Directors of five, together with such officers, servants, agents and employees as the board may select. The directors are to be elected annually by the stockholders at the principal offices of the company, which are to be located at Frankfort, on the fourth Tuesday in January in each year.

The following incorporators are by the articles constituted the first Board of Directors: S. S. Bush, Edmund F. Trabue, John C. Doonan, Attilla Cox, Jr., and Menefee Wigram. The corporation is to commence business upon the filing of the articles, and shall continue for a period of one hundred years, unless sooner dissolved or further extended as provided by law. The highest amount of indebtedness or liability which the corporation may incur is fixed by the articles at a sum equal in amount to the capital stock of the company. Each of the incorporators named above is designated in the articles as the owner of three shares of the stock of the company with the single exception of S. H. Owen, the amount of whose holdings is not given.

Cash Already Paid.

An affidavit by S. S. Bush and Attilla Cox, Jr., accompanying the papers filed, states that \$250 per mile of the capital stock of the Kentucky Highlands Railroad Company has in good faith been subscribed, and that 20 per cent. of said subscription of capital stock has been paid in cash to the persons named in the articles of incorporation.

DENY I. C.'S CONNECTION.

Attilla Cox Says New Road Will Be Only Thirty Miles Long.

Efforts were made last night to verify the report that the Illinois Central Railroad Company was behind the deal to build the Kentucky Highlands railroad, and that it would eventually be extended to the coal fields of Eastern Kentucky over the Louisville and Eastern Railroad from Versailles, but two Atlantic men, Attilla Cox, Jr., and John C. Doonan, denied the report. Mr. Cox said he supposed the report originated from the fact that his law partners, E. F. Trabue and John C. Doonan, were incorporators of the new company. He said the deal to build the railroad from Lexington to Lexington, was a deal, and so far as he knew, that is the only object of the company. He also said the report that the company in-

tended using the line of the Louisville and Eastern road to connect Frankfort and Louisville was without authority.

MAN WITH BLACKENED FACE SHOTS FARMER.

Fires Four Bullets At Edgar Winburn, But Fails To Kill.

Winchester, Ky., April 3.—[Special.]—While working in his tobacco field to-day Edgar Winburn was fired upon by a man whose face was blackened and who was otherwise disguised. Winburn was struck four times and was seriously, but not fatally, wounded.

Officers from this city were summoned and went to the scene with bloodhounds, and after tracing for several miles they finally returned to the home of Jack Webb, who lived in the same neighborhood.

Webb was brought to this city and lodged in jail. He protests his innocence.

WEALTHY WOMAN HANGS HERSELF FROM LADDER.

New York, April 3.—After several months of suffering from a nervous attack, Mrs. Ellen Perry Ryder, wife of Cornelius Ryder, one of the wealthiest men in Brooklyn, hanged herself to-day to the beam of the family home in Gravesend avenue. She had been dead two hours when her husband found her body swinging from a ladder that had been propped against the basement wall.

RESISTING POWER LIKE THAT OF METAL ROOF

SO WELLMAN DECLARES OF THE BALLOON HE WILL USE.

THINKS IT WILL WITHSTAND ICICLES OF FAR NORTH.

TELLS OF PLANS FOR TRIP.

New York, April 3.—Walter Wellman, who arrived to-day on the Kaiser Wilhelm II, expressed himself as well satisfied with all of his arrangements for his proposed trip in the Wellman-Record-Herald airship expedition to the North Pole. He informed the friends who met him at the pier that he would surely start in July.

"I am informed," said Mr. Wellman, "that Commander Peary thinks my plan is not practicable. He thinks it will not be possible to reach the Pole in balloon by reason of the weather conditions—showers, icicles and heavy snowfalls. In answer to his comment I want to say that Peary has no idea at all about ballooning.

"My balloon is constructed to meet all of the Arctic conditions, and I have full confidence in my ability to reach the Pole in it. When I set out from Spitzbergen in July, I shall think of nothing but success for my undertaking. My balloon has a resisting power of 500 pounds to the square inch, and that surely will be sufficient to turn all of the icicles to which Peary refers. 'The surface is just about as penetrable as the ordinary sheet-metal roof. I am not in the least superstitious. If I were, I would not be launching my balloon on this expedition to the unknown North from the very spot where Andre took his departure, never to return. He was not properly equipped as to mechanism in his ship, and I am convinced that he fell into the Arctic sea.

"I shall carry with me 7,000 pounds of gasoline to supply gas for the bag and 3,000 pounds of rations. I shall take with me about twelve Eskimo dogs for possible use. If I do succeed in finding the Pole, I fully expect it to be nothing more than the center of the open sea."

CRISIS COMES TO-DAY.

TEST VOTE IN DOUMA MAY LEAD TO DISSOLUTION.

Social Democrats Seeking To Knock Out Budget May Result In Step.

St. Petersburg, April 3.—The Associated Press is authorized to give a categorical denial to the rumors that have been in circulation here and telegraphed abroad to the effect that the Cabinet had decided to dissolve the lower house of Parliament. It is learned that a few of the reactionary members of the Cabinet maintain that the lower house should be dissolved on any pretext, but the matter has not been discussed at one of the three last sessions of the Cabinet.

The crucial moment, however, is expected to-morrow when a vote will be taken on the Constitutional Democratic motion to refer the budget to committee. There is a Social Democratic amendment to reject the motion totally and the Cabinet has been informed the passage of this amendment would be regarded as justification for dissolution. The vote is expected to be very close.

SKULL FRACTURED, BUT DOCTORS OVERLOOK IT

JUST DISCOVER ADDITIONAL INJURY TO MAN THROWN FROM BUGGY.

Paducah, Ky., April 3.—[Special.]—Related discovery that David Miller, of Hinkleyville, who was thrown from a buggy at Lone Oak last Sunday, had sustained a fracture of the skull, leads his physicians to predict his death. Two fractured ribs were thought to be the extent of his injuries, until signs of a much more searching physical test than that undertaken by the commission to-day, declared they were unable to find any really abnormal traces. Dr. B. D. Evans said there was an unusual bump near the base of the skull, and also told of Thaw's fluctuating pulse, declaring it was the most extraordinary he had ever met with in his medical experience. The rate of

FINAL TEST UNDERGONE

Harry Thaw Optimistic After His Ordeal.

Said To Have Made Satisfactory Showing.

Lunacy Commission To Present Report To-day.

MAY NEVER BE MADE PUBLIC.

New York, April 3.—To-morrow brings another critical stage in the case of Harry K. Thaw, when the playster of Stanford White will either be officially proclaimed insane and ordered sent to a State asylum or his trial will be resumed before Justice Fitzgerald upon the finding of the lunacy commission that the defendant is at this time capable of rightly understanding the nature of the charges against him and of rationally advising with his counsel. The commission completed its work to-night and will be ready to report to Justice Fitzgerald to-morrow morning.

Thaw underwent a private mental and physical examination for more than two hours this afternoon. In this last crucial test he was entirely alone before the commission, even the District Attorney and the members of his own counsel being barred.

Thaw Optimistic.

When the three members of the commission had completed their final examination, they shook hands with Thaw in a most cordial manner. He went back to his cell in the Tombs with a light heart and declared later to his counsel that he felt the commission would surely declare him sane to-morrow. The attorneys shared their client's optimism. The view of the situation, District Attorney Jerome would not commit himself in any way. Thaw's counsel declared they were ready to proceed with the case to-morrow and believed that Mr. Deinas might begin his summing-up address before noon. In that event they said, Mr. Jerome would address the jury on Friday and a verdict might be expected before the week's end.

There is little or no likelihood that the report of the commission which has inquired into Thaw's present mental state will ever be made public. If the decision favors Thaw, Justice Fitzgerald will merely order the trial to proceed without any reference whatever to the interruption which began two weeks ago. Should the decision be against Thaw, Justice Fitzgerald would have to quote but briefly from the formal finding of the commission in his order committing the young man to an asylum.

If committed, Thaw would have to remain in the asylum until declared sane by the superintendent of the institution. Then he would be brought back to this city and tried again.

Final Public Session.

The last public session of the commission was held this morning to hear the testimony of two more witnesses, Dr. Allen Rose Diefendorf, of Middle-town, Conn., for the prosecution, and Dr. Charles G. Wagner, of Binghamton, N. Y., for the defense. Dr. Diefendorf gave a purely academic decision, based upon assumed facts and writings of the defendant, and declared Thaw was incompetent. Dr. Wagner said he had talked with the prisoner almost daily for nearly two months and had been unable to find anything upon which to predicate an opinion of mental unsoundness at this time. He was not willing to go on record, however, as specifically declaring Thaw to be in every sense a sane man. He said he had not sufficient facts before him, or sufficient time in which to reach so positive a conclusion.

The Private Examination.

When the commission began its private examination of the defendant the members questioned him particularly about this delusion and others from which it has been testified he was suffering at the time that he shot and killed Stanford White. Dr. Puizl, of the commission, conducted the brief physical examination to which Thaw was submitted, and was given all of the standard tests of the reflexes, the pupils of the eyes, the Romberg test for evidences of locomotor ataxia, etc. Thaw is said to have undergone all of these tests in a thoroughly satisfactory manner. The alienists who testified for the defense and who conducted a much more searching physical test than that undertaken by the commission to-day, declared they were unable to find any really abnormal traces. Dr. B. D. Evans said there was an unusual bump near the base of the skull, and also told of Thaw's fluctuating pulse, declaring it was the most extraordinary he had ever met with in his medical experience. The rate of

beats often would change four times in a minute.

Mrs. Evelyn Nesbit Thaw, attired again in the blue school girl costume of the early day of the trial, was present during most of the public sessions, and while Thaw was closeted with the commission for his last ordeal she sat in the corridor with members of her husband's counsel.

Attorney Deinas was not present to-day, but at the end of the inquiry Thaw sent him a note by special messenger, telling him to be ready to proceed with his summing-up argument to-morrow.

PRISON DOORS OPEN FOR FIVE CONVICTS.

Louisville Men Among Those Paroled By Board.

Frankfort, Ky., April 3.—[Special.]—The State prison commission to-day granted a parole to John Shumaker, of Louisville, an inmate of the branch penitentiary at Edinville. Shumaker was sent up December 17, 1902, for ten years upon conviction of voluntary manslaughter. He was tried before Judge Asher Caruth, and he, together with Commonwealth's Attorney Joseph M. Huffaker, recommended action by the commission.

Other paroles granted by the commission were as follows: James Young, of Whitley county, sent up September 20, 1904, for six years upon conviction of manslaughter; W. G. Holland, of Whitley county, sent up February 12, 1902, for life for murder; James Sanders, of Pike county, sent up October 24, 1906, for three years for manslaughter; Stanford Isaacs, of Jackson county, sent up in January, 1903, for eight years upon conviction of manslaughter.

The members of the commission were summoned before the Franklin county grand jury in the matter of sewer connections at the prison.

ST. LOUIS BREWERY STRIKE TERMINATES

CONTRACTS RUNNING THREE YEARS SIGNED BY MEN.

GET INCREASE IN WAGES AND BETTER WORKING HOURS.

AGREEMENT ON ARBITRATION.

St. Louis, April 3.—Contracts for three years were signed by the representatives of the various breweries and their striking employees to-day, and the strike was officially declared terminated. There was a deadlock for two hours before the contracts were signed because the brewery proprietors insisted on the insertion of an arbitration clause in all contracts. The strikers objected, but finally yielded. The increase in wages granted and the changes in hours go into effect immediately. Operations will be resumed in the breweries as usual to-morrow.

Following are the changes in wages and hours:

Brewers and Malsters—Washhouse men increased from \$15 to \$16.50 a week; cellar men from \$12 to \$13.50 a week.

Bottlers—Were getting \$1.70 a day; now will receive \$2 for an eight-hour day.

Fremers—Were getting \$15 a week; will receive 30 cents an hour for eight-hour day, seven days a week.

Freight Handlers—Were getting \$2 for a nine-hour day; will receive 27 1/2 cents an hour.

Officers—Were paid \$62.50 a month with ten-hour day; will get \$15 a week, with eight-hour day.

Engineers—Increase from \$20 to \$23 a week.

Drivers—Increase from \$14 to \$15, and from \$15 to \$16.50 a week.

Ice Fillets—Work eight and one-half hours for \$2 a day.

Labors—Were paid \$1.50 for nine hours; now will get \$2 for a nine-hour day.

The Brewers' and Malsters' Union and the Bottlers' Union were the last to accept the offer of the brewery proprietors. The other unions were granted concessions that met their approval.

PROSPECTS BRIGHT FOR SETTLEMENT

WESTERN RAILROAD EMPLOYEES AGREE TO BASIS OF PLAN FOR IT.

Chicago, April 3.—A settlement of the controversy between the Western railroads and their conductors and trainmen seems nearer to-night than at any time since Commissioners Knapp and Neill interceded in behalf of peace. After delivering the ultimatum of the general managers to the representatives of the men this afternoon, a long conference was held and the final result was that the labor leaders came to an agreement which they requested the two Government officials to deliver to the managers to-morrow.

While it is not known officially what is the exact nature of the basis of settlement agreed upon by the men, it was stated by a man in authority that the prospects for a peaceable settlement of the difficulty were bright to-night.

Russia, Austria and Germany Standing Together.

Cannot See Any Hope of Practical Results.

PEACE CONFERENCE IN JUNE.

St. Petersburg, April 3.—The Russian representatives abroad have been directed to communicate a circular note regarding The Hague peace conference, the main feature of which is the announcement that Russia, Germany and Austria reserve the right to abstain from the discussion of questions "which in their opinion cannot lead to practical results," meaning the limitation of armaments.

Russia, in making her reservation, reaffirms her adherence to the former programme for the conference.

On the other hand, Great Britain and Japan reserve the right to abstain from the discussion of any points in the Russian programme from which, according to their views, satisfactory conclusions are not obtainable.

The question of the limitation of armaments, according to the Russian note, is proposed by three Powers, the United States, Great Britain and Spain, the United States also proposing the addition of the Drago doctrine to the programme—and several States reserve the right to present independent propositions to the conference on questions connected with the Russian programme, but not directly mentioned in it.

In conclusion, the note states that the Russian Minister at The Hague has been instructed to ask the Government of the Netherlands to issue final invitations to the conference, in order that it may be opened in the middle of June.

the question as to the limitation of armaments. In thorough sympathy with the British position, the Washington conference appears to have reached the same understanding as the Berlin officials relative to the status of that subject, namely, that it is one not included in the original program, but which may be discussed by the conference, if the majority of the delegates so decide. It is believed here that the explanation of the strong opposition made by some of the European Powers to the British plan of making this subject one for compulsory consideration is the reluctance of each of these Powers to be placed in a position of, perhaps, alleged resistance to the peace conference, which is a much-desired project of reduction and limitation of armaments.

AS MR. STEAD SEES IT.

Looks For Nothing More Than Educational Result.

New York, April 3.—William T. Stead, who has recently made a tour of the European Capitals in connection with the new Hague conference, and who comes here to attend the dedication of the Carnegie Institute at Pittsburgh, was a passenger on the steamer Caronia, which arrived today. During his stay in this country Mr. Stead will attend the national peace convention which is to be held in this city April 16 and 17. In his tour of the European Capitals Mr. Stead discussed the peace situation with many leading statesmen, among them the German Chancellor, Von Buelow.

In speaking of The Hague assembly he said America should carry one step further the principles which the American delegates incorporated in the convention of 1899—the recommendation that usage in duels should be extended to wars. "Article 8 of the convention, which contains this recommendation, has not been acted upon, although the recommendations were made unanimously," said Mr. Stead. "It recommends that when two Powers have had a dispute which they were unable to adjust by ordinary means, they should resort to hostilities. The moment they suspend diplomatic intercourse, they are at war. It should be called in a special mediator, corresponding to a second in a private duel, who shall have a period not exceeding thirty days in which to try and compose the dispute and avert war. If it had been acted upon neither the South African war nor the Russo-Japanese war would have broken out when they did. A pause of thirty days and a fresh desire for peace would give the world absolute security against sudden outbreaks of war and place the peace of the world in the hands of the United States and England, which would be the common sense of the community."

Mr. Stead said he does not look for anything more than an educational result from the discussion of the question of armaments at the next conference. "I am more interested in the proposal that the executive Governments of the world should endeavor to promote peace by other and more direct methods than by merely preparing for war," said he. "They ought to support the peace conference, to provide funds for the adequate exercise of international hospitality. If they spent one dollar on the peace conference, they would be doing something practical which would be done. On this point Sir Henry Campbell-Bannerman and Chancellor Von Buelow are agreed. England will support the United States when America takes the lead, and I hope America will support England when the latter takes the initiative."

Hopkinsville, Ky., April 3.—[Special.]—John W. Hutchins, district superintendent of the Kentucky Children's Home Society, appeared before the Christian county Fiscal Court today and told of the campaign of the organization to alleviate the suffering of pauper children. He stated that the society has found a large number of children in a physically defective condition who could be cured by medical and surgical science, and that it was the purpose of the Children's Home Society to build and equip a hospital for the treatment of such cases.

The Fiscal Court, at the conclusion of his remarks, appropriated \$250 for the hospital fund. Yesterday the Todd County board gave Mr. Hutchins \$100. The court appointed a committee composed of County Assessor Cook, County Attorney Duffy and Judge Dixon to appear before the State Board of Valuation and protest against the raise of 5 per cent. on Christian county lands subject to equalization.

WAREHOUSE FOR GLASGOW.

Arrangements To Handle Tobacco For Association.

Glasgow, Ky., April 3.—[Special.]—A movement is on foot here for the establishment of a tobacco warehouse at this place. Over 5,000,000 pounds of tobacco are bought in Glasgow annually, and some four or five buyers were being busy at work during the last season.

The tobacco of this section entering the Glasgow market is of excellent quality and is always in demand. It is thought that the 5,000,000 pounds would soon swell to 10,000,000, and probably 15,000,000, as there is a vast area of tobacco that grows elsewhere in the county which is not being marketed.

NEW ORLEANS, April 3.—[Special.]—The Magnolia Selling Stakes, carrying an added value of \$100 to the winner, as a feature of this afternoon had the effect of drawing another large crowd to City Park. The card offered was a decidedly bright one, as the talent was also enabled to once more see several of the recent Derby candidates in action.

Especially was this the case in the fifth, over the mile route, in which James McCormick's good Hastings colt, Tileing, was required to concede several pounds to Gargantua, the Goldblatt colt, which finished in the lead. The reason for this was that the latter was the winner of the recent Derby, and in the fifth race, Tileing, who was the winner of the recent Derby, was the winner of the recent Derby.

The cherry and black of McCormick were again seen in front in the Magnolia Stakes, when that owner's consistent performer, Emergency, made a runaway race, beating Quinn Brady, who was the winner of the recent Derby.

The Goldblatt colt, which finished in the lead, was the winner of the recent Derby, and in the fifth race, Tileing, who was the winner of the recent Derby, was the winner of the recent Derby.

The races here are being framed to suit the horses, which are decidedly off in class, compared to those racing here during the winter.

Jockey Gaddy has been set down for the remainder of the meeting for rough riding. The jockey, Ford, who was the winner of the recent Derby, was the winner of the recent Derby.

Hyperbole took to the track in the first race, and was the winner of the recent Derby, and in the fifth race, Tileing, who was the winner of the recent Derby, was the winner of the recent Derby.

WASHINGTON, April 3.—Excell-
ent sport marked the racing
at Benning to-day. Three fa-
vorites and one heavily-back-
ed second won the six events.
In the fourth race, a four and one-half
furlong sprint, Superstition, the odds-on
favorite, got away badly and did not fig-
ure in the race.

S.S.S. PURELY VEGETABLE

Not only is a medicine valuable for its ability to cure disease, but the way in which it affects the system is a very important factor. When the system is infected with the germs of disease as in Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., every particle of its recuperative strength is needed to assist in eliminating the poisons and impurities which are causing the trouble. It should not be dosed and treated with strong mineral mixtures and concoctions that further add to the burden, by disagreeably affecting the bowels, producing indigestion, or eating out the delicate linings and membranes of the stomach. The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons for its being now the most widely known and universally used blood medicine on the market. It is made entirely of healing, purifying roots, herbs and barks of the forests and fields. These are selected for their well known curative properties, and are known at the same time to possess the qualities to build up and strengthen every part of the system by their fine tonic effect. Not only is S. S. S. the king of blood purifiers, but it is the one medicine that may be taken with absolute safety by young or old. We guarantee it non-injurious and offer a reward \$1.00 for proof that it contains a particle of mineral in any form. S. S. S. is a safe and reliable treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and any and all diseases arising from a poisoned or impure state of the blood. It goes to the very bottom of these troubles, removes every trace of disease, enriches and builds up the blood and permanently cures where mineral medicines fail. If you are suffering with any form of blood disease write for our book on The Blood and ask for any medical advice you may desire; no charge for either. THE SWIFT SPECIFIC CO., ATLANTA, GA.
